PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DIA). The photographic analysis for this particular report was performed by the CIA Photographic Intelligence Division.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

DESCRIPTION OF INSTALLATION

Railroad Service

east at 44-10N 132-54E.

The installation is served by a spur from the Manzovka-Arsenyev main rail line. The spur divides into a small probable 4-track classification yard at the south end of the installation. A loading dock and an open storage area are located immediately east of this yard. Rolling stock has been observed on all missions.

Road Service

A probable all-weather secondary road provides access to Arsenyev.

Administration and Troop Housing Area

Area D contains 1 administration building,

1 multistory barracks, and 11 support buildings. Medium track activity has been observed throughout the period.

age area between June 1963 and February 1964.

General Storage Areas

Area E1 contains 5 large storage buildings, 11 smaller storage buildings, 9 support buildings, and 1 probable guardhouse. Three storage buildings were constructed between June 1963 and February 1964. Track activity has remained medium throughout the period.

Area E2 is an open storage area adjacent to the rail yard.
